# Love Endures

Tom & Suzie will be sharing key components of a vibrant and honest marriage. No matter what your circumstances are, this course is designed to help you navigate through the complex marriage relationship. The workshop will explore what God's word has to say about marriage and its foundations. You will come away with practical steps to developing better communication, understanding your role in the marriage, and learning to lean on grace and forgiveness.

## Tom & Suzie Brock

have been serving in full time ministry for over forty years. They have founded and directed ministries, which have sent missionaries to four continents. They have also served as pastors for two congregations.

They challenge their listeners to totally commit themselves to the Lord and to finding their place in the body of Christ. Their concern is that the believer learns to appropriate everything that the Lord has for them.

Tom & Suzie will bring their honest and unique style to the workshop sharing their experiences and practical help for marriages. Whether you are newly married or in a seasoned marriage, this conference will help in your journey as a couple.
